MILES G. GIBSON

Miles is a dynamic individual with excellent people skills. He has broad and diverse experience building a wide range of business applications, and is committed to providing excellence and quality of service to his clients. Miles has over **twenty two** years of professional and relevant experience in the computer industry.

Miles performs the role of Client Manager, Project Manager, Business Analyst, and Software Architect regularly for his projects. Recent contract work includes work for both public and private sector clients.

Miles uses industry standard life cycle methodology for all projects, including new development, right sizing and re-engineering applications.

Miles is a Senior Consultant and Principal with Milestone Consulting. He is currently focusing on developing quality web database applications using Iron Speed Designer.

Miles is the first person to offer Iron Speed training and has already conducted two Boot Camps for private corporations. Miles's expertise in Iron Speed keeps him busy coaching and mentoring clients who are using Iron Speed to fast-track their development efforts.
